Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Eleven by Henderson Directories Limited, in the Office of the Minister of Agriculture

# Preface

---

We have pleasure in presenting this the fourth edition of Henderson's Brandon City Directory. The canvass of the City, necessary to the publication of this work, clearly indicates that the growth and development which we have had to report in previous issues is of a permanent character, and we have endeavored to faithfully chronicle this progress, for it is generally recognized that there is no better means of spreading information concerning a city, or of making known its commercial and social advantages than through the medium of a thorough, up-to-date City Directory. Such a work we have endeavored to make this present issue.

From the classified business section of the work it will be noticed that many new business firms and professional men have located here during the year.

We have again to extend our thanks to our patrons for so marked an increase in the advertising department and for this expression of their growing faith in the necessity and usefulness of this publication, which has become an indispensable adjunct to a modern city's business machinery.

Very truly,

HENDERSON DIRECTORIES LIMITED.

August, 1911.

### PUBLIC PARKS BOARD

Chairman—W. H. Shillinglaw  
 Mayor J. W. Fleming; Aldermen J. H. Hughes and McKenzie;  
 Members: J. S. Maxwell, H. L. Adolph, A. F. Campbell, Profes-  
 sor McKee, Peter Middleton.  
 Secretary—Harry Brown.

### BRANDON FIRE DEPARTMENT

Headquarters Princess Ave. Cor. Seventh Street.

Chief—John Melhuish

Captain—R. S. Daley — *McCURRIE*

The department consists of sixteen permanent (fully paid) firemen, including chief and six call men.

The equipment consists of one steamer, two chemicals, two hose wagons, one hose reel, one aerial ladder, one hook and ladder wagon and ten horses.

There are 114 fire hydrants, distributed throughout the city. The fire pressure from the waterworks, pumping station is 140 pounds with a total pump capacity of 3½ million gallons in 24 hours. It is a direct pumping system, there being no reservoir or stand pipe. The electric fire alarm system has 34 boxes.

### CITY WATERWORKS

The waterworks pumping station is situated at the corner of 26th Street and McDonald Avenue and north of the C. P. R. track. It is ¼ miles west from the City Hall.

Superintendent and Chief Engineer—A. W. Shaw; assistant engineers, John W. Anderson and Thomas McPhail.

The supply is taken from filter gallery and the Assiniboine River with a 40-inch intake to the pumping station which is 1,000 feet south

of the river. The system is what is known as direct pumping, there being no reservoir or stand pipe. The plant consists of one two million gallon D'Auria high duty pump, two 1,200,000 gallon Worthington pumps, four 500,000 gallon pressure filters, operated by four 75 horse power boilers.

The engine room is 36x44 feet, filter room 36x44 feet, and the boiler room 30x44 feet. There are 1,100 domestic services, of which 400 are on meter, and 93 fire hydrants. A domestic pressure is maintained at 85 pounds, while for fire purposes the pressure is raised to 140 pounds at the station. The total capacity of the pumping plant is 3½ million gallons for 24 hours.

### PUBLIC WORKS AND IMPROVEMENTS

The City has 21 miles of water mains, 19 miles of sewers, 30 miles of granolithic sidewalks, and 36 miles of graded street. Permanent steel and concrete bridges are constructed over the river at First and Eighteenth Streets.

### BUILDING PERMITS

1910 ..... \$1,175,385

### SYSTEM OF NUMBERING HOUSES

The system of house numbering adopted by the City of Brandon is the Philadelphia or Decimal system. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On the avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Avenue.

**Pacific Avenue** is taken as the basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the City.

**Assiniboine Avenue** is the basis for all streets running northward starting at number 1 going northward 100 to block to the northern limits of the City.

**First Street** is the basis and dividing line for all avenues which run east and west. Starting at 100 and going westward 100 to the block to the western limits of the City, and again starting at number 1 and going eastward 100 to the block to the eastern limits of the City.

---

**Rosser Avenue** and all avenues running westward from **First Street** are intersected as follows:

Number.

100 First Street  
200 Second Street  
300 Third Street  
400 Fourth Street  
500 Fifth Street  
600 Sixth Street  
700 Seventh Street  
800 Eighth Street  
900 Ninth Street  
1000 Tenth Street  
1100 Eleventh Street  
1200 Twelfth Street  
1300 Thirteenth Street  
1400 Fourteenth Street  
1500 Fifteenth Street  
1600 Sixteenth Street  
1700 Seventeenth Street  
1800 Eighteenth Street and so on to Thirty-fourth Street and western boundary of the City.

**Rosser Avenue East** and all avenues running eastward from **First Street** are intersected as follows.

Number

1 First Street  
100 Dennis Street  
200 Russell Street  
300 Frederick Street  
400 Park Street  
500 Rideau Street  
600 Franklin Street  
700 Percy Street  
800 Douglas Street  
900 Tenth Street  
1000 Eleventh Street and so on to Seventeenth Street and eastern boundary of the City.

**First Street** is a basis for all streets running southward from **Pacific Avenue** west of **First Street**, which are intersected as follows:

Number.

1 Pacific Avenue  
100 Rosser Avenue  
200 Princess Avenue  
300 Lorne Avenue  
400 Louise Avenue  
500 Victoria Avenue  
600 McTavish Avenue

700 Van Horne Avenue  
 800 College Avenue  
 900 Park Avenue  
 1000 Southern Avenue  
 1100 Brandon Avenue  
 1200 Hill Avenue  
 1300 Queen Avenue  
 1400 Brock Avenue  
 1500 Richmond Avenue, the southern boundary of the City.  
 East of First Street are intersected as follows:  
     1 Pacific Avenue  
     100 Rosser Avenue  
     200 Pacific Avenue  
     300 Lorne Avenue  
     400 Louise Avenue  
     500 Victoria Avenue  
     600 McTavish Avenue  
     700 Van Horne Avenue  
     800 College Avenue  
     900 Park Avenue  
     1000 Hawthorne Avenue  
     1100 Madison Avenue  
     1200 Lexington Avenue  
     1300 Clark Avenue  
     1400 Spadina Avenue  
     1500 Wellington Ave., the southern boundary of the City.

### TRANSPORTATION FACILITIES

The City is connected by four great trunk lines, viz., the Canadian Pacific, Canadian Northern, Great Northern and the Grand Trunk Pacific Railways. The construction of the Hudson's Bay Railway will assist in making Brandon the distributing point for all the produce of Western and Southern Manitoba together with the eastern portion of Saskatchewan for the world's nearest market.

Brandon is the second divisional point on the C. P. R. system west of the Manitoba boundary in the very heart of the Province.

The Canadian Northern Railway Company's new main line from Port Arthur to Regina gives Brandon a fast through passenger service. This Company realizes that Brandon is one of its most important divisions.

The Great Northern terminal from St. Paul is located in the business centre of the City. Its handsome passenger depot facing and extending across 12th Street close to Rosser Avenue, substantial brick freight sheds and offices have been erected by the Company adjacent to its passenger depot. The Company finds it necessary to make still further provision for the increasing traffic. An extension of this company's lines is to spread its system out all points of Brandon.

The Grand Trunk Pacific's connecting line gives Brandon a fast service to Edmonton and intervening points, as well as providing the City with closer freight rates.
